Light Houses by the Sea

Sarah Walker ArtShades, the contemporary lampshade maker from Worcestershire, makes a range of lamps that are perfect for holiday homes by the sea.

Her Seashore Collection is inspired by sand, sea and sails in cool blues and whites. They are slimline half-shades which are ideal for shelves, mantelpieces or compact bedside tables <http://www.artshades.co.uk/prodrange.htm>

Made from layered, stitched and hand cut plant fibre papers on solid wood bases they have an organic feel perfect for holiday homes which like to bring the outside in.

Each lamp is £130 including UK p&p.
